

Brad McDaniel, CSCP

Vice President of Logistics Services

Brad McDaniel is the Vice President of Logistics Services for PS Logistics, LLC. He is responsible for multiple asset based and 3PL companies under the PS Logistics umbrella, as well as the pricing, contracts, general procurement, facilities, and revenue recovery departments.

Prior to his current role, Brad served as Director of Supply Chain Management at AM/NS Calvert (formerly ThyssenKrupp Steel USA). He successfully led the team for the greenfield project in south Alabama, throughout the construction site logistics phase and into the operational phase. He was responsible for internal and external movement of WIP, scrap and finished goods via transportation of all modes. He also led the shipping, packaging, intra-plant operations, warehousing, inventory management and TMS/WMS systems implementation teams.

Prior to that role, Brad had spent 15 years in various corporate Supply Chain Management roles in industry as well as service sectors. With over 30 years in SCM, Brad is well versed in speaking about issues that face the shipping and transportation aspects of today's markets.

Brad is a Certified Supply Chain Professional (CSCP) and holds dual degrees in Marketing and Logistics from the University of South Alabama.
