

Stacy Earnhardt started his career nearly 30 years ago, washing and fueling trucks. He began his career performing the tasks so vital to a fleet's daily function. Grounded in his own frontline work experience, Stacy moved up through the ranks and today serves as the VP of Asset Management for Best Logistics Group in Kernersville NC. Stacy has oversight for all asset purchasing along with a multi-state maintenance operation. In the Operational realm, he presides over the company's Oversized and Specialized freight division, its Warehousing operations, and its Trailer Rental business unit. Stacy's experience "in the trenches" and his ability to get hands on with technical issues provide him with an invaluable perspective. His ability to take a top-down view, understanding both operational and maintenance concerns, enables him to make strategic decisions that not only increase morale and productivity, but the company's OR as well. Stacy is a driven individual who strongly believes in giving back what he has been given. He has served as Chairman of Maintenance Council for the North Carolina Trucking Association, Chairman and General Treasurer for the Technology and Maintenance Council for the American Trucking Association, Chairman of the Advisory Board for the Forsyth Tech Diesel, and Heavy Equipment program, along with participation on the Advisory Board for several local schools. He is passionate about helping prepare the next generation of employees for the Trucking Industry, ensuring they have the same opportunities he has enjoyed.
