

Mike Tunnell is the Director of Energy & Environmental Affairs for the American Trucking Associations. ATA is the largest national trade association for the trucking industry. Through a federation of 50 affiliated state trucking associations and industry-related conferences and councils, ATA is the voice of the industry America depends on most to move our nation's freight. Mike has been working on energy- and environmental-related regulatory and legislative issues at ATA for more than 25 years. During this time, Mike has helped develop ATA positions on various environmental rulemakings impacting trucks and trailers ranging from federal engine and vehicle emissions standards to California's in-use vehicle emissions standards. He has also worked on legislative issues affecting the trucking industry at both the federal and state levels. Mike is a native Californian and lives in the Sacramento area.
